minimal deployment cost

unobtrusive integration

reduced wastage

document confidentiality

get your printouts now – just **Tap 'n Print**

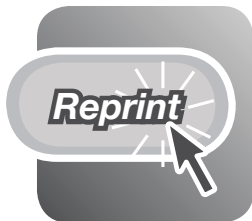

Tap 'n Print is an inexpensive and simple solution that helps to reduce wastage. Users only need to tap their identification cards on the printer's card reader to release a hardcopy of their documents. Unreleased documents can also be automatically deleted after a specified period of time, helping to minimize forgotten or uncollected printouts. Tap 'n Print requires no server hardware or additional software, hence can be easily deployed with virtually no disruption to office workflow.

what you have been putting up with...

Unmanageable mess at printers as a result of uncollected documents.

Employees reprint their documents as they are unable to find from the pile of mess.

Additional wastage and causing hassle to their co-workers.

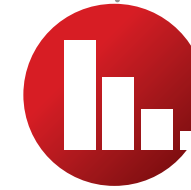

1 Users send their documents for printing.

2 Documents are held electronically at the printer.

3 Users tap their identification cards to release a hardcopy of their documents.

4 Unreleased documents can be automatically deleted after a specified period of time, reducing wastage.

benefits

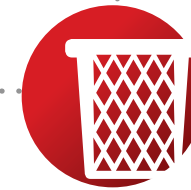

Minimal Deployment Cost

Tap 'n Print is installed onto the printing devices only, requiring no additional server or software.

Unobtrusive Integration

Document workflow remains practically unaffected, and users require only minimal training.

Reduced Wastage

Uncollected printed documents are eliminated.

Document Confidentiality

Documents can be collected by their owners without risk of compromising sensitive information.

Convenient Access

Keying in passwords is not required, as users need only tap their ID card to print their documents.
